25X1 14. [] Mr. Frank Schroeder, Senate Internal
25X1 Security Subcommittee staff, asked for any information which we might
have on the []

25X1 15. [] At his request I stopped by and met
with Mr. James Gehrig, Staff Director, Senate Aeronautical and Space
Sciences Committee, who advised that Senator Symington would very
much appreciate receiving a briefing from Doctor Wheelon on Soviet
space posture similar to that given the Chairman while Mr. Symington
was out sick. I advised Mr. Gehrig that I would relay the request and
see what times could be arranged tentatively for Monday, Tuesday, or
Wednesday of next week.

Mr. Gehrig requested advice for the Chairman concerning the
Soviet reports set forth in the Evening Star of May 16 concerning a dust
cloud on the moon upon impact of the Soviet lunar flight a week ago. He
also requested, where possible, that consideration be given to keeping
him advised on behalf of the Chairman on Soviet space activities. He
feels that the Chairman and he, on behalf of the Chairman, is not really
in a position to know what questions to ask or when to request information
from us.

25X1 16. [] Mr. Darden telephoned saying
Senator Stennis would like a briefing of the CIA Subcommittee of Senate
Armed Services tomorrow morning. Mr. Darden specifically men-
tioned the Middle East briefing which we had discussed previously
and any other items of interest which the Agency wishes to bring up.
